Dear ██████████

The Director of the Ohio Department of Health and I were pleased to note that your Home Health Agency was found compliant with all applicable Medicare Program requirements at the time of the re-certification survey completed on December 16, 2010.

Deficiency free surveys indicate a significant effort on the part of the administration and staff. It is an accomplishment for which you and all staff at Americare Home Health can be justifiably proud.

Congratulations. We look forward to your agency continuing to operate at this exemplary level.

Sincerely,
